ARRIVE ✓ CLEAN ✓ DRAINED ✓ DRY

Please help protect Lake George from Aquatic Invasive Species by following these guidelines:

✓ Clean

Clean and remove all visible plants, animals, fish, and mud from your boat, trailer, or other equipment and dispose of in a suitable trash container or on dry land *before leaving the launch.*

✓ Drain

Drain water from bilge, live wells, ballast tanks, and any other locations with water *before leaving the launch.*

✓ Dry

Dry your boat, trailer, and all equipment completely when moving between waters to kill small invasive species not easily seen.

Drying times vary depending on the weather and the type of material. At least five days of drying time is generally recommended during the summer.
